

NYLON RECOIL HOSES

Interstate Pneumatics Nylon Recoil Hoses have low weight, in comparison to regular rubber hose, makes them a favorite for all industrial and automotive applications. These hoses automatically retract when not in use, eliminating hazards caused by loose hoses on the work floor.

SALIENT FEATURES:

- Maximum resistance to oil and grease
- Less than 1% moisture absorption
- Excellent abrasion and corrosion resistance
- Swivel fittings with spring protectors

YELLOW 1/4" I.D. NYLON RECOIL HOSE

Safety factor 4:1
Temperature range
20°F to 140°F

Model No.	Hose Length	Stored Length	Working Length	*O.P. @ 75°F	Fitting Size	Fitting Type	Weight g/m
