# Data Sheet

**PERFORMANCE RATINGS:**

- Operating Pressure: Vacuum to 120psi; (8.3 bar)
- Temperature: -40°F to 180°F; (40°C to 82°C)

**NEW**

**MATERIALS & CONFIGURATIONS:**

- Bodies & Terminations: Acetal (POM)
- Internal Valves: Acetal (POM)
- Internal Valve Springs: 316 Stainless Steel
- O-rings: FDA & NSF Listed Grade Buna-N (others available)
- Thumb-latch: Stainless Steel
- External Springs & Pins: Stainless Steel

The LinkTech interchangeable quick couplings are particularly well suited for use on durable and disposable medical equipment, analytical devices, food & beverage applications, POU installations and water filtration applications, among others.

Our standard product range is very broad with over 1000+ styles, including a complete range of threaded, panel mount, in-line and elbow configurations.

The new Push-In Couplings offer the highest flow with no installation tooling needed. It connects with most plastic and copper tubing for easy connections. They are designed and manufactured as trouble free with a long service life.

## Features

Push-In Fitting integral to the coupling.

Compact Size.

Fits 1/4" OD tubing.

Produced in FDA and NSF compliant materials.

No tools required.

## Benefits

Eliminates leak points and costs.

More space efficient.

Works with most standard 1/4" tubing types.

Can be used with most Food & Beverage and Compressed Air Applications.

Fast, easy, and intuitive tubing connections.
